

INCIDENT COMMAND WEEKLY SUMMARY

TUESDAY FEBRUARY 16, 2021-MONDAY FEBRUARY 22, 2021

Goals of the Incident Command COVID-19 Response

- Slow the spread of COVID-19 in Brown County to minimize illness and death.
- Keep Brown County open using proactive prevention efforts.
- Promote both community and internal resiliency efforts.
- Ensure Brown County residents have access to COVID-19 vaccine in a timely and equitable manner.

Successes/Milestones this week

- Brown County Board of Supervisors passed a declaration advancing racial equity in the county.
- Only 18 confirmed cases were reported the weekend of February 20th-22nd, 2021. This is the lowest amount of additional cases we have had reported since June 6th-8th, 2020 when there were 10 additional cases reported.

A Note from Brown County Public Health

Brown County Public Health is urging the community to consider how individual actions like attending community events, dining out at a restaurant, or attending a wedding without taking proper precautions such as physical distancing, or wearing masks, may contribute to increased spread of COVID-19 here in Brown County.

All gatherings and activities involve some level of risk. Wearing a face covering helps protect our communities, including those at higher risk for severe illness and workers who frequently encounter others like nurses, grocers, and first responders.

Now, more than ever, it is important to continue these important public health recommendations. The sooner we get back to working together to reduce the spread of COVID-19, the sooner we can get safely back to work, school, sports, concerts, and doing all the things we all miss.

We're all in this together.
